Michigan Information on Timely and Accurate Data

The Michigan Department of Education (MDE), Office of Special Education and Early Intervention Services (OSE-EIS) reviewed data submitted in the federal fiscal year (FFY) 2008* Annual Performance Report (APR) and Section 618 data required under the *Individuals with Disabilities Education Act* (IDEA) to determine the extent to which all data reported by the state were timely, complete, and accurate.

Reviewing all reported data is a collaborative effort among MDE offices, OSE-EIS grantees, and other state agencies. Reviews of major data submissions, including the timeliness of the submissions, are conducted on a regular basis. State data is compared to the previous year's data as a quality check.

*FFY 2008=July 1, 2008 to June 30, 2009

Michigan's Commitment to Education

The OSE-EIS continues to focus on timely and accurate reporting of data to maintain the current level of compliance.

Defining Timely and Accurate Data

Timeliness is defined as the state's submission of data on or before the due dates. Accuracy is defined as the extent to which data reported are valid and complete. Michigan is using the U.S. Department of Education, Office of Special Education Programs (OSEP) formula to measure this indicator.
