Helping Young People Succeed In School

www.ProjectFindMichigan.org

In Michigan we know that education begins at birth. We also know that some of our children need extra help or related services along the way. That's why Michigan's special education system helps children from birth to 26 years of age.

Some children and youth have more difficulty learning than others. They may have physical, emotional, or communication difficulties that prevent them from learning. Project Find provides a referral to special education services through Michigan's public schools.

If you know of a child or youth who is struggling with learning, call Project Find Michigan at **(800) 252-0052**.
